Rules & Regulations

Association Rules & Regulations

Adopted March 5, 2024

The following **Rules & Regulations** and related procedures have been adopted by Fairways at Grand Harbor Condominium Association at a regular meeting of the Board of Directors.

These restrictions assist in protecting the property values and livability of the entire association. Each member of the Fairways at Grand Harbor community has a very important role in this effort.

NOW, THEREFORE IT IS RESOLVED that the Association does hereby adopt the following Rules & Regulation and related procedures.

Section 1: Administrative Overview

The Board of Directors shall have the power and duty to hear and make decisions regarding violations and written complaints filed with the Board and impose fines or other sanctions, pursuant to this policy or related policies. The Board may determine enforcement action on a case by case basis, and take other actions as it may deem necessary and appropriate to assure compliance with the Declaration of Covenants, Conditions and Restrictions for Fairways at Grand Harbor (“Declaration”), the Association’s Articles of Incorporation, Bylaws and Rules & Regulations (collectively the “Documents”) promulgated thereunder, and to create a safe and harmonious living environment.

These Rules & Regulations and enforcement provisions may be in addition to other specific provisions outlined in the Documents, and the Association is not required to follow these enforcement provisions before seeking such other remedies. The Association may choose a legal remedy or seek assistance from other enforcement authorities, such as police, fire or animal control, as it deems appropriate.

Complaint A proceeding to determine if the Documents (Bylaws, Rules & Regulations) have been violated and any enforcement measures and remedies that may apply shall be initiated by the filing of a written complaint with the Board of Directors or designee. Any person residing in Fairways at Grand Harbor may initiate a complaint after observing an alleged violation. The complaint shall state the specific provision(s) of the Documents (Bylaws, Rules & Regulations) alleged to have been violated and as many specifics as are available as to time, date, location and persons involved.

Enforcement The provisions of this policy shall not limit, or be a condition precedent to, the Association's right to enforce the Documents by any means available to the Association, including, but not limited to, commencement of a lawsuit to force compliance or seeking inductive relief or damages. The Association shall be entitled to reimbursement of all reasonable attorney's fees and costs incurred by the Association in connection with any enforcement action, including any proceeding under this policy or related policies. Without limiting the Association's remedies under the Documents, the Board of Directors may assess fines, suspend membership privileges, and impose other sanctions in accordance with this policy or related policies. If the violation involves damage to Association property, the violator shall also pay the costs of repair or replacement. The Board of Directors may revoke or suspend the violator's privileges for a period of time equal to the duration of the violation and for up to sixty (60) days thereafter, unless such violation is a continuing violation, in which case such suspension may continue for so long as such violation continues and for up to (60) days thereafter.

Habitual Offenders and Continuing Violations An Owner, Occupant, Tenant, ~~Invitee~~ Guest or Licensee who accumulates more than three (3) violations within a twelve (12) month period will be deemed to be a habitual offender. For habitual offenders the Board of Directors may impose such additional fines as are deemed reasonable. The letter informing the property Owner and/or Violator of his or her status as an habitual or continuing violator will notify the Owner and/or Violator of the interval upon which additional fines will be imposed to a maximum allowed by Florida State Law.

Hereinafter, enumerated as to the Association Property, the Common Elements, the Limited Common Elements, the Units, structures and the facilities available for use shall apply to unit **Owners, Tenants, Occupants, Licensees, and** Guests. All persons owning property, residing in or entering Fairways at Grand Harbor are required to abide by Association By-laws, Rules & Regulations and local ordinances.

Responsibility for Actions of Tenants or Guests. Owners shall at all times be responsible for the actions of their Tenants and Guests. In the event that an Owner's Tenant or Guest violates the Documents, and a fine is imposed, the fine can be assessed against that Owner.

Waivers Any waivers, consents or approvals given under these Rules & Regulations by the Board of Directors shall be in writing, only apply to a specific request and not be considered as a waiver, consent or approval of identical or similar situations. Any waiver, consent or approval may be revoked at any time.

Section 11: Flooring Alterations • Renovation • Modifications

Forward

Architectural standards and guidelines are administered by the Architectural Review Committee, which is responsible not only for enforcing standards, but reviewing members' applications for additions, alterations or modifications according to formal procedural rules.

The purpose of the Architectural Review Committee is to administer the community's guidelines by overseeing changes and modifications to property through an application and appeal process. The committee will endeavor to balance the interests of individual homeowners and the community as a whole, ensuring that guidelines are met, and property values are protected. Ultimately, the committee has a duty to put the interests of the community as a whole above the interests of individual homeowner members.

11.1 Exterior

Modifications, changes, additions, or improvements to the exterior of the unit buildings, common elements and limited common elements are prohibited without prior written approval to the Board of Directors.

11.1.1 Window replacement, hurricane shutter installation and new balcony/patio enclosures require prior written approval and must meet specified standards.

It is the sole responsibility of the Owner to ensure the contractor or vendor supplies the proper insurance coverage to Property Management prior to any work being performed in a unit.

11.7 Any damages or claims related to improper coverage by the contractor or vendor will be the responsibility of the Owner. For more information regarding the coverage required, please contact Property Management.

11.8 All contractors, retained by the owner, are to be up to date with all pertinent local, state, and federal building codes before beginning work on any unit. It is the Owner's obligation to secure permits where applicable.

11.9 Plumbing and electrical modifications shall be performed by a licensed contractor.

11.10 All interior construction will be limited to the hours of 8:30A.M. to 4:30 P.M., Monday through Saturday.

11.11 Tools, debris, trash and equipment shall not be removed from the unit after 4:30PM.

11.20 In the event that any installation of hard surface flooring materials is attempted or made without benefit of an approved underlayment the Board of Directors will have the right to require that such flooring materials be removed immediately at the Owner's expense.

11.21 Any installed hard floor covering material must be installed with a soundproof system for the benefit of all Residents. No hard floor covering material, including, but not limited to tile, marble, stone, wood, and laminate shall be installed in any part of any unit unless such flooring is installed over a Sound Control Underlayment System that is rated at IIC-STC 70 or higher.

Installing Tile or Stone on Balconies

11.23 A waterproof membrane and drip edging must be installed on the second and third floor balconies before installing tile over existing concrete. At the outer parameters of the balcony a drip edge (Drip Lip) must be installed to allow the evacuation of water from under the tile.

Failed Tile on Balconies

11.24 *** If balcony tiling system causes a leak to the unit below the Owner is required to remove the failed tile and cementitious binder and seal the concrete perimeter where the concrete meets the building.

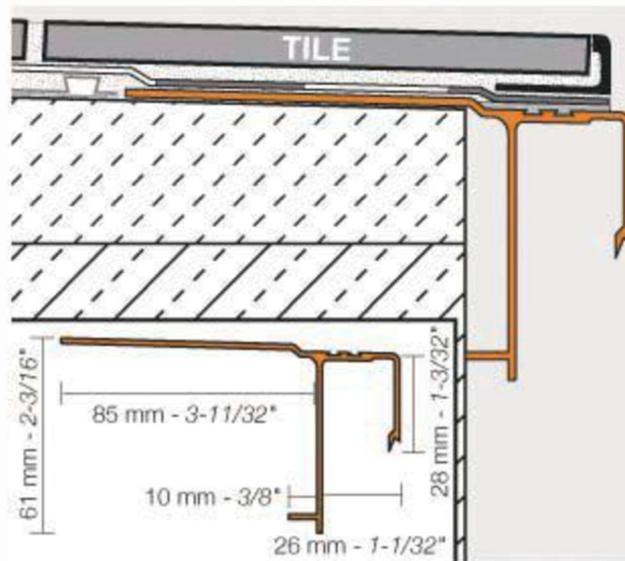

Future Tile Installations

11.25 A waterproof membrane and drip edging system must be installed before installing new tile or stone over a cement balcony floor.

Figure 1 is an example of a properly constructed tile system required by the association.

Schluter-BARA-RAK is a powder-coated aluminum edging profile with a drip lip. The profile finishes the exposed edges of floor assemblies on balconies and terraces that have an existing sloped screed. The trapezoid-perforated anchoring leg of Schluter-BARA-RAK should be integrated with a suitable waterproofing membrane. Once the anchoring leg of Schluter-BARA-RAK becomes integrated with the waterproofing membrane, tile installation can begin.

When using Schluter-BARA-RAK as an edging profile for floor assemblies that are to receive a waterproofing membrane with a mortar screed on top, a drainage layer must be incorporated into the surface assembly. Schluter-BARA-RAK produces a clean edge finish and protects the exposed edges against weathering and decay.

Note: If a balcony is located over an habitable space, it is technically considered to be a roof and is required to have a minimum slope of 1/4 inch for positive drainage.

The current TCNA Handbook (The Council of North America) states horizontal installation requires proper slope of 1/4" per foot for drainage in all exterior areas to mitigate water intrusion into the tile assembly.

What does IIC & STC Mean?

Sound Transmission Class (STC) from the American Society for Testing and Materials (ASTM) E336/E413 and Impact Isolation Class (IIC) ASTM E492/E989 are ratings measured in decibels. The STC rating pertains to airborne noise, such as voices, radio, television, etc. The IIC rating measures impact sounds, such as footfalls, dropped objects etc. The transmission of these sounds through floor/ceiling assemblies (such as those found in multi-level homes and condominiums) will be inhibited by underpayment with higher IIC and STC ratings.

Section 12: Architectural Control

Modifications, changes, additions, or improvements to the exterior of the unit buildings, common elements and limited common elements are prohibited without prior written approval by the Board of Directors.

The Board of Directors requires an individual seeking to retain an emotional support animal in any unit that differentiates from established Rules & Regulations regarding pets, shall substantiate your disability and establish that the support animal is necessary to use. All such requests will be submitted to the Association's attorney.

Note: Courts have consistently held that a tenant requesting an emotional support animal as a reasonable accommodation must demonstrate a relationship between his or her disability and the companionship of the animal. Associations are entitled to the supporting materials that document the need for an emotional support animal. In most cases, a letter from an individual's doctor or therapist explaining the need for your support animal is sufficient.

Should anyone enter a public place with a service animal, Staff may ask two questions: (1) is the dog a service animal required because of a disability, and (2) what work or task has the dog been trained to perform.

HUD and DOJ indicated in a Joint Statement on Reasonable Accommodations under the FHA that the housing provider is entitled to obtain only that information necessary to determine whether the requested accommodation is necessary because of a disability. See:
<https://www.hud.gov/sites/documents/43503HSGH.PDF>

The Americans with Disabilities Act (ADA) defines “service animals” as dogs that are individually trained to perform tasks for persons with disabilities. These are NOT PETS, and are generally prescribed to perform specific tasks for which they are trained by qualified trainers from birth. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties.
