

## **Exterior Antenna**

The following rules apply to individual owners installation of antennas (including dish type TV antennas).

1. Antennas shall not be installed on the exterior of any Coralstone building.
2. The Board will consider written requests to install exterior antennas on association common property where;

The antenna is pole mounted, behind and in close proximity to the owners unit.

The total installed height must not exceed four feet.

The antenna will be screened, by shrubs, at the requestor expense.

Any cable on the exterior of the unit shall be kept to a minimum and painted to match the condos exterior wall. Cable penetrations shall be properly sealed.

3. **The BOD must approve a request before an antenna is installed.**
4. The BOD will not cut, or allow to be cut, any trees or shrubs to allow/improve reception.
