NOTE: The Sands I email system requires a signed Consent from each owner who wants to receive emails from Sands I. Using electronic communication promises faster delivery and savings to owners, because postage, envelopes, printing, and stuffing costs can be reduced dramatically.

The Sands Community Association, which oversees the shared interests of six individual homeowner associations, including Sands I, also operates an email system and the Sands I Board urges you to sign up to receive its very important information.

These email systems are independent from each other and each one requires a separate Consent Form. Contact The Sands Community Association to obtain its Consent Form.
